BODY FRONT

Ventricle (small curvature) 91
Duodenal bulb 90
Gallblader 89
Stenocardia syndrome 88
Respiratory failure 87
Stenocardia syndrome 87
The capsule of the liver 86
Gastritis, stomach 85
Poor circulation of the right schoulder joint 84
Automata breathing 83
Parenchyma of the liver 82
Gallblader 81
Stumach (small curvature) 80
Right kidney disorders 79
Small intestine 78
Violation of the pelvic circulation 77
The mendian nerve (cervical radicular ischemia) 76
The ulnar nerve (cervical radicular ischemia) 75
The ascending colon 74
The ascending colon 73
Parenchyma of the right kidney 72
The radial nerve,(Cervical radicular ischemia) 71
The plot of the function of weakening 70
Right lung 69
Osteoarthritis of the right hip joint 68
Osteoarthritis of the right hip joint 67
Uterus, prostate 66
Poor circulation right foot, arthritis of the hip 64
The head and body of the pancreas 62
Osteoarthritis of the right knee joint 61
Stumach (small curvature) 60
Circulation right shin 59
The bodom of the gallblader 58
Duodenal bulb 57
the body of the gallblader 56
Bile ducts 55
Osteoarthritis of the right ankle 54
The right kidney 53
The right half of the bladder 52
Gallbladder 51
Stumach (small curvature) 50
65 Sexual disorders
63 Osteoarthritis of the right knee joint

1 Stumach (greater curvature)
2 Thyroid disorder
3 Duodenal bulb
4 Pancreas
5 Perekarda ischemia
6 Heart failure
7 Spleen capsule
8 Low immunity
9 Heart valve disorders
10 Circulatory disorders of the shoulder point
11 Ischemic heart disease
12 Heart rythm
13 Parenchyma of the spleen
14 Stumach
15 Pancreas
16 The left kidney
17 Zones: see bottom*
18 Descending colon
19 The radial nerve (cervical esteochondrosis)
20 Parenchyma of the left kidney
21 Radial nerve (cervical osteochondrosis)
22 Average nerve (cervical osteochondrosis)
23 The plot of the function of weakening
24 Left lung
25 Osteoarthritis of the left hip joint
26 Uterus, prostate
27 Poor circulation left foot, arthritis of the hip
28 Osteoarthritis of the left hip joint
29 Sexual disorders
30 Osteoarthritis of the left knee
31 The tail part of the body of the pancreas
32 Osteoarthritis of the left knee
33 Stumach (greater curvature)
34 Circulatory disorders of the left foot
35 The bottom of the gallbladder
36 Duodenal bulb
37 The body of the gallblater
38 Duct gallblater
39 Osteoarthritis of the left ankle
40 Left kidney disorder
41 Bladder
42 Gallbladder
43 Stumach (greater curvature)
44 Pancreas
45 Genitals
46 Osteoarthritis of the ankle joint
47 Bladder
48 Liver
49 Corns (stone in the gallblader)

A B C D E

*A|E - Ovaries
B|D - Pipe, the uterus (females)
A|E - Eggs
B|C|D - Prostate (men)

DIAGNOSTIC REPRESENTATION OF FUNCTIONAL DISORDERS OF THE INTERNAL ORGANS OF THE HUMAN BODY

BODY BACK

The tail and body part of the pancreas

Sublwxation at the base of the skull

Lymphatic and kidney imbalance

A disturbance in the skeletal system

The head of the pancreas

The upper pole of the left kidney

The lower pole of the left kidney

Basilar insufficiency

The left part of the colon

The left ureter

Mammary gland

Greater curvature of the stomach

Spleen capsule, the shoulder periarthritis

A- heart failure, B- heart valve disorders, C- ischemia, angina heart, D- cardiac arrhythmia

Pancreas

Energy center of the heart

The left kidney and the bladder

Ischemia of the aorta

Left kidney

Pancreas

Circulatory disorders of the pelvic organs on the left side

The colon on the left

Parenchyma of the left kidney

Cardiac disorders

Descending colon

The Body and tail of the pancreas

The left half of of the bladder

Small intestine

Genital disorders

The left ovary in woman en left testicle in men

Ligament of the left hip joint

Cardiac disorders

Left lung

Descending colon

Nervous system

small intestine (left side)

Infringement of the sciatic nerve

Sexual organ (left)

Osteoarthritis of the left hip joint

Osteoarthritis of the left knee

The left kidney

Ligaments of the left knee

Ureter left kidney

The bottom of the gallbladder

The body of the gallbladder

Duct gallbladder

Ligament fo the left ankle

91 90 89 88 87 86 85 84 83 82 81 80 79 78 77 76 75 74 73 72 71 70 69 68 67 66 65 64 63 62 61 60 58 57 56 55 54 53 52 51 50 49 48 47

92 93 94 1 2 3 4 5 6 7 8 9 10 11 95

A disturbance in the skeletal system

Basilar insufficiency

The upper pole of the right kidney

The lower pole of the right kidney

Right kidney ureter

The bottom of the gallbladder

The right side of the transverse colon

Duct gallbladder

Representation of the right breast

The capsule of the liver, the shoulder periarthritis

Pigmentation - small curvature of the stomach

12 Energy inbalance in the lung

13 The right kidney and the bladder

14 Right lobe of the liver

15 The right kidney

16 The right kidney

17 Right adrenal gland

18 Circulatory disorders of the pelvic organs on the right

19 The ascending colon

20 Small intestine to the right

21 Inflammation of the elbow joint

22 Parenchyma of the right kidney

23 The head and body of the pancreas

24 Rising colon

25 Bladder (right half)

26 Small intestine

27 Small intestine (right side)

28 Right ovary in woman and right testicle in men

29 Ligaments of the hip

30 Sexual organ (right)

31 Right lung

32 Rising colon

33 Nervous system

35 Infringement of the sciatic nerve

36 Osteoarthritis of the right hip joint

37 Osteoarthritis of the right knee joint

38 The right kidney

39 Ligaments of the right knee joint

40 Right ureter

41 The bottom of the gallbladder

42 The body of the gallbladder

43 The ducts of the gallbladder

44 Ligament of the right ankle

A B C D

97 Candida infection of the greater curvature of the stomach

98 Candida infection of the small curvature of the stomach"

34 Small intestine

59 Heart, small intestine

45 Tenosynovitis

46 The large intestine

DIAGNOSTIC REPRESENTATION OF FUNCTIONAL DISORDERS OF THE INTERNAL ORGANS OF THE HUMAN BODY

HEAD AND NECK

Representation of the right kidney pelvis 86

Representation of the right lobe of the liver 85

The entire transfer orbital eye area, the right kidney 84

The body of the gall bladder ducts 83

Long lashes - as a sign of kidney infection 82

Duodenal bulb 81

The right side of the transverse colon 80

The right kidney 79

Rocks, sand, congestion 78 in the renal structures

Pancreas 77

Right lobe of the liver 76

Ear canal, ureter right kidney, bladder 75

Right lung 74

Right kidney ureter 73

Cardiac arrhythmias, the pathology 72 of the small intestine

Brochus of the right lung 71

The right breast 70

Small curvature of the stomach 69

Xiphoid 68

The small intestine of the right half of the body 67

Hormonal system 66

Sign of atrophic stomach 65

Small curvature of the stomach 64

Symptoms of diabetes 63

Greater curvature of the stomach 62

Right hip 61

Adrenal right kidney 60

Right inguinal fold inguinal ligament 59 inguinal lymph nodes

W: Right ovary, M: Right testicle 58

Small curvature of the stomach 57

56

W: right breast, right ovary, right sight 55 of the uterus, M: right lobe of prostate, right testicle

Right renal pelvis 54

Right lobe of the thyroid 53 gland

gallblader 52

right kidney ureter 51

Representation of the right kidney pelvis 87

Adrenal right kidney 87

Cecum 88

Transverse colon 89

Appendix 90

Stomach 91

Bladder 92

Genitals 1

Navel area 2

Rectum 3

Sigmoid colon 4

Liver 5

Small intestine 6

Descending part of the colon 7

Adrenal left kidney 8

Representation of the left kidney pelvis 9

The upper pole of the left kidney 10

Representation of the left lobe of the liver 11

The body of the gallbladder 12

vascular pattern as a sign of ischemia of the heart and aorta 13

The left side of the transverse colon 14

Biliary ducts of the liver and gall bladder 15

representation of the left kidney 16

The pathology of the heart 17

Ureter left kidney 18

The ear canal, Ureter left kidney, urinary bladder 19

Muscle jaw joint. Left lobe of the liver 20

21 Left lung

22 The left breast

23 Bronchus of the left lung

24 Greater curvature of the left stomach

25 Diaphragm and rib are left

26 Small intestine left half of the body

27 Duodenal bulb

28 Pylorus

29 The left hip joint

30 Left inguinal fold, inguinal folds inguinal lymph nodes

31 Adrenal left kidney

32 The left ovary women left testicle in men

33 The left breast

34 Pubic symphysis

35 Representation of the left kidney

36 Greater curvature of the stumach

37 Women: left breast, left ovary, left half of the uterus
Men: left lobe of the prostate, left testicle

38 Left renal pelvis

39 Left lobe of the thyroid gland

40 Pancreas

41 Ureter left kidney

The right kidney

Pyloric part of the stumach 50

Duodenal bulb 49

The right breast 48

Small intestine 47

The blood supply of the thyroid gland 46

The uterus, the share of the prostate, perineum 45

Bladder 44

Duodenal bulb 43

Pyloric part of the stomach 42

DIAGNOSTIC REPRESENTATION OF FUNCTIONAL DISORDERS OF THE INTERNAL ORGANS OF THE HUMAN BODY
